

O. Best Practices and Activities of the following :**ii. Music :****Music is the thread that ties people across all age groups.**

Friendly and informal environment in studios after formal classes, study tours, Art & Architecture sessions, Art & Music related Electives are certain reasons that bring students and teachers closer due to Music. A harmonious environment prevails on knowing each other's hobbies, qualities, skills and likings esp. genres of music.

This year Elective "Music & Architecture" is being taught by National Odissi Dancer & Performer Ms. Prachitee Dange, who is currently pursuing her study in Master in Dramatics. Few "Basic Design" assignments are also conducted for topics like of Spaces & Forms in Architecture.

Fresher's Party and Annual Culturals organized every year offer a good platform for students and teachers to perform and display their love for Music.

Lately in our college, teacher-student duo or group for playing and/or singing has been the most enjoyable activity at the cultural events, to see the teacher & student sharing the stage and synchronizing well, behind which has gone time of practicing together in the extended, non-teaching hours to put up a good performance together.

International Day of Yoga on 21st June every year sets in a very different background with meditative music at the beginning of the academic year.

Faculty Prof. Romeiro Silveira on his drum-set:**Faculty Ar. Dipti Bapat singing with students:**

Our Students playing and singing various Musical Instruments (Guitar, Basuri, Tabla):
