Hoysala Temples

UNDERSTANDING ARCHITECTURE ON ROAD TO WORLD HERITAGE

Ar. Pankaj Modi
Conservation Architect

A conservation architect by practice, for more than two decades, he did his Masters in Conservation from SPA, New Delhi, and specialising in Wood Conservation at Oslo, Norway with a KICROM fellowship.

Actively involved with the Bangalore Chapter of India's largest NGO in the space of Heritage, INTACH, leading their technical team towards the successful completion of many conservation projects. One of the significant projects was leading the team of INTACH to successfully prepare the Nomination Dossier that got Sacred Ensembles of Hoysalas the World Heritage status from UNESCO in September 2023.

He is also a partner of Sayithu, a conservation collaborative, that works on a diverse range of conservation projects from Documentation to Restoration to Heritage Assessment, working for the Archaeological Survey of India, Neerwana, ITC, and others.

Threatened (encompasses CR, EN, and VU)

Extinct (EX)
Out of all species that have ever lived, 99.9% of them are now extinct. The IUCN has documented 830 species known to have gone extinct since AD.

Extinct in the Wild (EW)
Currently the IUCN has 69 species listed as extinct in the wild. These species have been extirpated from their natural range and now exist only in captivity.

Critically Endangered (CR)
To be listed as threatened, a species must fit one of the following qualifications:
A projected population decline of greater than 80% over the next 10 years or three generations.

Endangered (EN)
A global range of less than 100,000 km².

Vulnerable (VU)
A stable global population size of less than 100,000 individuals.

Near Threatened (NT)
Near threatened species are in danger of becoming threatened. Species with least concern ratings may still have declining populations or face threats, but not to the level required for a threatened listing.

Least Concern (LC)
Out of the Red List's 77,000 listed species, 35,000 are listed as least concern and 5,000 as listed as near threatened.

For species that have yet to be sufficiently evaluated, the additional classifications wait data deficient (DD) and not evaluated (NE)

 Students of fifth year B.Arch. received 3rd prize at the Bharat Nav Nirman Challenge organised by NICMAR.
 Forgotten Waterbody to Living Landmark: Reviving Peshwa Talav, Jajuri

The topic focuses on revitalizing the river edge of Jajuri as a culturally vibrant and ecologically sensitive public space. The proposal integrates landscape restoration, pedestrian connectivity, community zones, and spiritual-cultural interfaces to create a sustainable and socially inclusive waterfront environment.
